Pedestrian priority on campus

Question: Does your university as a body prioritise pedestrian access on campus?

Answer: Yes **Data year:** 2025

Summary

The Sea Campus in Tuzla is laid out so that pedestrians have priority. Vehicle traffic is kept on the perimeter road and in the indoor car park, while the core of the campus between Blocks A, B, C and D is a car-free pedestrian zone of plazas, walkways and landscaped courtyards. The main entrance and the second and third campus entrances connect to this pedestrian network, and a landscaped walking path links the campus to the coastal green area.

1. Campus site plan (Directorate of Construction and Technical Affairs)

Sea Campus site plan: perimeter road with entrances; pedestrian plazas and walkways between the teaching, administrative, library and laboratory blocks.
