Piri Reis University

Evidence for THE Impact Ratings 2027 – Indicator 6.3.4

Building standards to minimise water use

Question: Does your university as a body apply building standards to minimise water use? (relevant standards to be indicated)

Answer: Yes **Data year:** 2025

Summary

The Sea Campus buildings are certified to the BREEAM standard, which also assesses water efficiency (Block A BREEAM Excellent; Blocks B, C and D BREEAM Very Good). All cisterns, urinals and showers on campus are water-efficient; tap replacement is ongoing, with 94% of fixtures overall water-efficient and a 100% target for 2027.

1. BREEAM certification (building standard applied)
